Date

Signature of Responsible Business Official

Section II – Mercury Disposal Practices

Instructions: Answer each question to the best of your knowledge. If a question does not apply to your establishment, write down N/A.

- **What is the average water consumption for your business in gallons per day?**

- **Is the sanitary sewer service line from your business's building connected into the City of Portage's Sanitary Wastewater Collection System or into a septic tank?**

- **How does your business segregate and prevent mercury contaminated byproducts (such as amalgams) or instruments (such as from broken thermometers, switches, etc.) from entering into or contaminating the sanitary wastewater discharged from your building's sanitary sewer service line?**

- **If your business utilizes specialized equipment for the segregation and proper disposal of mercury contaminated byproducts or instruments, how often do you have the unit cleaned and serviced during the year?**

- **If your business has specialized equipment for segregating and disposing of mercury contaminated byproducts or instruments, who cleans and services the unit (give the name, address, and the telephone number of the person or the contract waste hauler)?**
