

**January 26, 2022**

Citizens of Portage:

This is a communications letter with important information regarding residential sanitation trash & recycling services for the City of Portage.

Portage is experiencing an unprecedented growth in the housing market. New subdivisions are being developed throughout our community. This increase of residential stops within the current assigned routes requires the department to make changes. Route boundaries are being moved to balance the load among four established days Monday through Thursday.

The following new boundaries will be adjusted and take affect **starting Monday, March 28, 2022**. If your address is close to a current boundary being moved within your service trash day, this may involve you.

The map on the back will help you identify your new service trash day.

New MONDAY Boundary, North of Stone Ave & West of Willowcreek

New TUESDAY Boundary, South of Stone Ave & West of Willowcreek

New WEDNESDAY Boundary, North of Central Ave & East of Willowcreek

New THURSDAY Boundary, South of Central Ave & East of Willowcreek

The department understands that these adjustments may take time to become accustomed to and we will do everything we can to service those areas affected.

If you have further questions or concerns, please contact (219) 762-4564, or email our department at [PSD@portage-in.com](mailto:PSD@portage-in.com)
